

## Capabilities Statement

### Summary

---

As a women-owned company, Prolific Solutions treats each solution delivered to our clients as if it was our own. We have over 12 years of experience working with Federal Agencies (included the Department of Defense) and bring that expertise to our commercial clients. Prolific Solutions has extensive experience implementing information security best practices and helping to secure our clients' information, assets, data, and reputation. We have been involved in the certification and accreditation of over 60 information systems and networks ranging from complex medical information systems to large, distributed network environments. We have proven expertise in:

-  Risk Analysis
-  IT Audit including DoD Policy and Guidance
-  Vulnerability Assessments
-  Process Engineering
-  Policy Development
-  Incident Response/Disaster Recovery
-  Penetration Testing
-  Contingency Planning
-  Data Forensics

Our consultants carry numerous certifications including:

-  Certified Information Systems Auditor (CISA)
-  Certified Information Systems Security Professional (CISSP)
-  Masters of Science in Information Assurance (MSIA)
-  Various other Microsoft and security related certifications/education

Our services are classified into four primary areas:

-  Process Engineering and Automation
-  Secure Business Modernization
-  Security Consulting
-  Compliance and Audit

### Services

---

#### 1. Process Engineering and Automation

Prolific Solutions created proVM Auditor™ to revolutionize the vulnerability management process. We also have vast experience in engineering custom solutions to reduce the requirement for manual, resource-intensive processes. We can help you better leverage technology and automation in any business area.

Previous projects include:

-  Vulnerability data collection, management, remediation and aggregation via proVM Auditor™
-  Project reporting and tracking mechanisms
-  Learning management
-  Information assurance vulnerability tracking mechanisms
-  Compliance reporting
-  Account management
-  Reverse Engineering

## 2. Security Consulting

Prolific Solutions offers comprehensive security services. These services range from penetration testing to vulnerability assessments. We examine:

- 🚀 Network infrastructure components (switches, routers, firewalls, etc.)
- 🚀 Database architectures (DB2, SQL, Oracle, etc.)
- 🚀 Web applications and servers
- 🚀 Operating systems of servers and desktops (Windows, UNIX, etc.)
- 🚀 Technology implementation and architecture

## 3. Compliance and Audit

We work to identify deficiencies and provide corrective actions to ensure organizations are brought into specific industry compliance. We offer consulting services to ensure compliance with:

- 🚀 Department of Defense Certification and Accreditation (DIACAP)
- 🚀 Sarbanes-Oxley
- 🚀 Gramm-Leach-Bliley
- 🚀 ISO 27000 Series
- 🚀 PCI
- 🚀 HIPAA

## 4. Secure Business Modernization

Prolific Solutions examines business infrastructures and identifies areas of improvement to allow businesses to become more efficient and secure. This includes:

- 🚀 Network implementation
- 🚀 Database migration
- 🚀 E-mail and user management tools
- 🚀 Website development and process engineering and automation
- 🚀 Remote access solutions
- 🚀 Training
- 🚀 Implementation of business best practices
